BESA License Key 3.0 Release Notes

HaspUserSetup.exe - Runtime Environment

Known issues with available workarounds

(complete list is available as "Readme.html" in downloaded HaspUserSetup.zip archive, available on <https://www.besa.de/home/downloads/besa-license-key/>)

Reference	Description
SM-68016	After you upgrade the Run-time Environment, Admin Control Center might show a dummy key id for Key type - "HASP Placeholder" Workaround: Refresh Admin Control Center.
SM-20626	When installing the RTE on a machine where Fabula Tech USB over Network is installed, installation of the RTE hangs. Workaround: Disconnect the HL key before running the RTE installer.
